

Protect yourself from unexpected tax audit costs.

There's nothing more frustrating than being selected for a review or audit of your lodged returns instigated by the Australian Taxation Office (ATO) or other government revenue authorities. The cost of being properly represented can be quite considerable depending on the circumstances. Even a simple inquiry can require hours of work.

That's where Audit Shield can help.

Audit activity can affect all taxpayers regardless of whether you are an individual, business or have a Self Managed Superannuation Fund.

Here are just a few examples of focus areas:

Work Related Expenses

Many individuals have fully claimable work related expenses but the ATO has stated recently that individuals have been making excessive claims and this has led to the ATO scrutinising work related expenses much more closely.

Payroll Tax

Payroll Tax continues to be a major focus area. Data sharing with other government authorities is assisting in raising red flags in this area, as well as in other related tax areas such as Land Tax and Stamp Duty.

BAS Reviews (Pre & Post Assessment)

BAS Reviews attract a lot of audit attention from the ATO and were noted as one of the most highly reviewed audit focus areas in the last financial year. The ATO are trying to stamp out errors in BAS submissions by introducing the online BAS check tool however this only reinforces that it is a key focus area.

Single Touch Payroll (STP) & Superannuation Guarantee (SG)

The ATO now knows every business that is registered for STP that has not met their PAYG and SG payment requirements. That enables greater compliance cross-checking which leads to more audit activity.

Rental Properties

The ATO intends to significantly increase the number of reviews and audits it conducts in relation to rental property claims with respect to capital works, capital assets, or other rental property related expense claims. The ATO also wants all taxpayers to be aware that if you earn income through sharing-economy services like Airbnb that this must be declared in your tax return.

Black Economy or Cash Economy

Accepting cash as payment is legitimate however the ATO has benchmarks that it uses to determine if a business is not declaring all of their income. Businesses that do not comply may be audited.

Self Managed Superannuation Funds (SMSF)

A SMSF is an excellent nest egg for the future but there are a lot of compliance issues related to the risk, return, and liquidity of the funds' investments that need to be fully addressed. One minor issue could flag attention from the ATO that will place the SMSF under scrutiny.

Should a difference arise between our fees and the amount available to be covered against the policy, we may need to seek the shortfall payment of our fees from you. Will my professional fees be covered?

Yes. Costs (professional fees) which are directly related to the work we are required to undertake as a result of audit activity will ordinarily be covered (up to the prescribed cover limit).
